

TEST HISTORY IN PARENTVUE/STUDENTVUE

Test History has been added to ParentVUE and StudentVUE accounts. Hopefully this will assist schools with providing MAP and other test scores to parents, and will save the expense of mailing these scores home multiple times a year.

The log in screen for the web application will look like this:

Test History has been added to the Home menu.

When Parents or students click on Test History they will see cumulative scores as well as a chart indicating Growth. The Chart does not compare the student scores to the district averages...only individual growth.

***Scores displayed in this document are in no way related to the students displayed on the prior page.

TEST HISTORY

MAP

Test Part	Year	School Name	Admin Date	MAP Read - RIT Score	MAP
Reading	2015-2016	Prairie Trail Middle School	04/19/2016		85

Growth Over Time

Legend:

- Reading - RIT Score (Blue square)
- Reading - Test Percentile (Red square)
- Mathematics - RIT Score (Green square)
- Mathematics - Test Percentile (Yellow square)

1 2

Note: It appears as though the Growth Over Time chart is blocking the view of Scores, especially when viewing MAP tests. However, if you hover over the bottom of the Test grid, you will see a scroll bar appear, and you can pull the score columns into full view! Students and Parents may also hover over the color coded "dots" on the Growth Chart to see scores.
