Making a Difference

Volunteer with kids in schools

Looking for a way to give back to your community? Volunteering with youth in your local schools is a great place to start. It's an investment in a child's life. Volunteers inspire students to expand their view of possibilities and open new worlds.

Connecting Caring Adults

Studies show that a positive role model in a young person's life helps students achieve success. Olathe's Volunteer program is fun and meaningful. Serving students in grades K to 12, volunteers consistently encourage students to be successful. All activities take place on school grounds during school hours.

Discover the Fun!

Volunteers in Olathe schools have a variety of ways to get involved. They determine whether they want to work as a classroom helper or one-on-one mentor. Choose the day you would like to volunteer and the age group you enjoy. Volunteers can choose a school location near their work or home.

- Be a lunch buddy
- Tutor
- Read to a small group of students
- Be a career coach
- Classroom helper
- Teacher support
- Special projects

See a young person succeed—volunteer in Olathe schools!

How do you become a Volunteer?

- 1** Complete an application and consent to a background screening. Download an application at www.olatheschools.org/volunteering.
- 2** Choose a volunteer activity and school near your home or work.
- 3** Schedule an interview and attend a training.
