A.L.I.C.E.

- Discuss possible alerts that might be heard that indicate an intruder is in our school.
- Discuss how we will barricade this classroom and other classrooms in the building.
- Discuss the location of the closest exit.
- Discuss where we might evacuate.

- What if I am in the hallway or bathroom? You should find the closest exit and evacuate the building. If you cannot run out of the building, find a safe place to lockdown or barricade.
- Will I get in trouble for leaving the building? You will absolutely not get in trouble. With this new protocol, you are supposed to leave the building quickly if that is an option. Your teacher may in fact tell you to evacuate.
- Do we all have to evacuate to the same place? No. Your class or schools may talk about ideas for places to run to, but the most important thing is to go quickly and get as far away from the building as possible. There will be plenty of first responders out in the neighborhood in a matter of minutes to help you. Find a safe adult once you can no longer see the building.
- How will my parents find me? The district will get information to your parents on where they can come pick you up. It will not be at our school or where you might evacuate to...it will be at another location, like a Walmart or the fire station where you will be transported to be reunited with your family.
- I am a high school student. Can I jump in my car and drive away to evacuate? Run from the building. DO NOT drive. Any sort of traffic jam would delay public safety from arriving on the scene as soon as possible.
